

Danzol Pyramid WW-15

Coning Oil

Mineral based coning oil for continuous polyester and polyamide yarns

Applications:

- Designed for throwing processes.
- Recommended for raw and dyed polyamide or polyester yarns, textured on any fast machine.

Advantages:

- Avoids oil splashes on the machines.
- Conventional washing processes.
- Environmentally friendly.
- Provides high level antistatic protection.
- Decreases yarn/metal friction.

Typical properties:

PROPERTY	TYPICAL VALUES
Aspect at 20°C	Clear liquid
Colour Gardner	< 2°G
Density at 20°C	0,86
Viscosity at 20°C	28 – 31 cSt
Viscosity at 40°C	11,5 – 14,5 cSt
Flash point	>130°C
pH in demineralized water (10%)	Neutral
